# Sure Cure

The debilitating effects of a warm climate and exposure to all kinds of weather are sure to bring on disorders of the blood and weaken the system.

Mr. Charles Geddes, of Mt. Malcolm, W. A., sends us his photograph and tells of a sure cure for these conditions.

"For some time I have been landlord of the Royal Hotel in the Mt. Margaret gold fields district, eighty miles from the nearest railway. I have sold a great deal of Ayer's Sarsaparilla, and it gives the most universal satisfaction. When miners, prospectors, and others become run down by lack of fresh vegetables and fruits, and from exposure to all kinds of weather, their blood becomes very impure and the whole system greatly weakened. But

## AYER'S Sarsaparilla

is always a sure cure. I have known miners to send a hundred miles for it, such is their faith in it.

There are many imitations Sarsaparillas. Be sure you get "Ayer's." Ayer's Pills will greatly aid the action of the Sarsaparilla. They are all vegetable, mild, sugar-coated, and easy to take.

The New York Legislature is considering the advisability of propagating beaver in the Adirondacks, but it is understood that the ministers are much against it. They claim that summer visitors dam the big modernized woods enough now without putting beaver to work.

## VOTE OF THANKS FOR DR. COOPER

### BOARD OF HEALTH EXPRESSES ITS REGRETS AT HIS RESIGNING THE PRESIDENCY.

At the meeting of the Board of Health yesterday afternoon a vote of thanks was given to Dr. C. B. Cooper, the retiring president. It was presented by Dr. Mays in the following form:

"I move that a vote of thanks be tendered to Dr. C. B. Cooper, for his long services in this Board, first as an ordinary member and afterwards as its president. During his incumbency of the chair he has by his skill and energy maintained a high standard of efficiency in all branches of the Health Department of these Islands, promptly aligning it with the most modern and progressive ideas. He deserves a special credit for bringing this department into closer touch with the central health authorities at Washington; who now recognize, as never before, the importance of the Health Board of this Territory as the outpost of national defence against the great epidemic diseases of Asia. This is evidenced by the selection, by Surgeon-General Wyman, of Dr. Cooper as chairman of the section on leprosy in the coming conference of the United States Boards of Health at Washington, a fitting tribute to Dr. Cooper's standing in sanitary science.

"We express sincere regret at the close of Dr. Cooper's occupancy of the chair, but trust that his public services will be as highly appreciated by the people generally as they are by each member of this Board.

"(Signed) W. H. MAYS,  
 "M. P. ROBINSON,  
 "F. C. SMITH,  
 "JOHN C. LANE,  
 "E. C. PETERS.

"Honolulu, April 6, 1904."

Dr. Cooper cordially thanked the Board for its expressions of confidence and good feeling, and promised to give all the assistance in his power. Regarding the Board's request that Dr. Cooper remain a member of the Board Dr. Mays, occupying the chair, made the following statement:

"The request made of Dr. Cooper the other day, that he remain on the Board as a private member, was not made in any factional spirit whatever. Just now we need the benefit of his knowledge of health affairs. The Legislature will no doubt require thorough information as to the workings and requirements of the Board of Health, and there is no one who can better give that information than our late president.

"Before taking action on health matters, committees of the House and the Senate will naturally expect to confer with the official head of this department. Whoever shall be chosen as president of this Board we hope that Dr. Cooper will assist him in these conferences, if called upon, and so promote the object for which the session has been called."

A number of petitions and routine reports were received, among them being the quarterly report of Dr. H. C. Sloggett, superintendent of the Asylum for Insane, showing a total of 175 patients, 132 males and 43 females, divided by nationalities as follows:

Hawaiians 45, Chinese 25, Portuguese 25, Japanese 24, American 7, English 2, German 2, Norwegian 2, French 1, East Indian 1, West Indian 1, Manila 1, Central American 1, S. S. Islands 3, Gilbert Islands 3, Polish 1, Porto Rican 7, part-Hawaiian 6, Scotch 1.

During the quarter 15 were received, 20 discharged and 4 died.
